

DANGER!

DRONES ABOVE!

*(left) explosive grenades drop from a drone over Gaza
(right) various "israeli" drones armed with guns*

WARNING: The U.S. and "israel" use drones to massacre men, women, and children in Gaza. **Do NOT be fooled by the pretty lights!** As you watch the show, imagine if it were **your children** running for their lives from these speeding, buzzing drones.

RESIST DRONE TYRANNY

REJECT DRONE NORMALIZATION

The "israeli" Defense Forces (IDF) have murdered children, journalists, and nurses with drones. Many killings have taken place in and around hospitals. IDF drones have been documented playing audio recordings of children crying to lure civilians out and kill them. Drone manufacturers supplying the IDF include Autel and DJI, both of which have offices in the Seattle area. **Don't think it can happen to you?** Seattle start-up BRINC is currently developing tactical drones for police use. The IDF has run training programs for American police departments, including SPD. **Drone violence is coming to America.**
